DESCRIPTION OF THE FACIAL:

The Rezenerate Facial System allows the targeted products/serums chosen by you and your skin care professional to reach maximum efficacy! The intended result is typically smoother, firmer and younger looking skin, but any number of results can be achieved depending upon the chosen serum/products used. Rezenerate Facials are performed in a safe and precise manner with the use of sterile Rezenerate components. (All serum/products should be discussed separately with your skin care professional.)

POTENTIAL SIDE EFFECTS:

I recognize there are no guaranteed results and that results are dependent upon age, skin condition, and lifestyle and that there is the possibility I may require further facials to obtain the expected results at an additional cost. After the Facial, in rare cases, the skin will be pink and flushed in appearance. You may also experience skin tightness and mild sensitivity to touch or sweating on the facial area.

I understand that the Rezenerate Facial is a cosmetic treatment, not a medical procedure.

The Rezenerate Facial and any potential contraindications or side effects have been explained to me to my complete satisfaction.

I am advised that though good results are expected, the possibility and nature of complications cannot be accurately anticipated and that, therefore, there can be no guarantee as expressed or implied either as to the success, or any other result of the Rezenerate Facial, and I hold Rezenerate and my skin care professional harmless for any undesired effect.
